Dental, Vision and Hearing

Dental, Vision and Hearing Select from ManhattanLife was designed with you in mind. With the ability to choose specific benefits, you can customize a plan tailored to fit your needs.

Studies suggest that for every dollar spent on preventive dental care, patients can save between \$8 and \$50 in future dental treatment costs, demonstrating the economic value of regular check-ups.¹

20% of patients with regular dental check-ups reported being “very satisfied” with their dental care, compared to 10% of patients with irregular check-ups, suggesting that regular visits contribute to higher patient satisfaction.²
